

A vibrant landscape with a bright blue sky, white clouds, a green field, and a single tree. The text is overlaid on the sky.

*How can you
reduce the bills
at home?*

Klaudia Olejniczak 2m

In my house I pay 140 zł for electricity,
170zł for heating and 80zł for water every
month.

I think it is too much.

Because of that I came up with few ways
to reduce the bills !

ELECTRICITY WHAT CAN WE DO?

- ▶ *When we don't watch TV,
we should turn it off.*

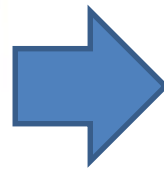

► Turn off all electrical devices when we go out.

▶ *We can replace electrical kettle with traditional one.*

► *You can make coffee by yourself instead off using coffee maker.*

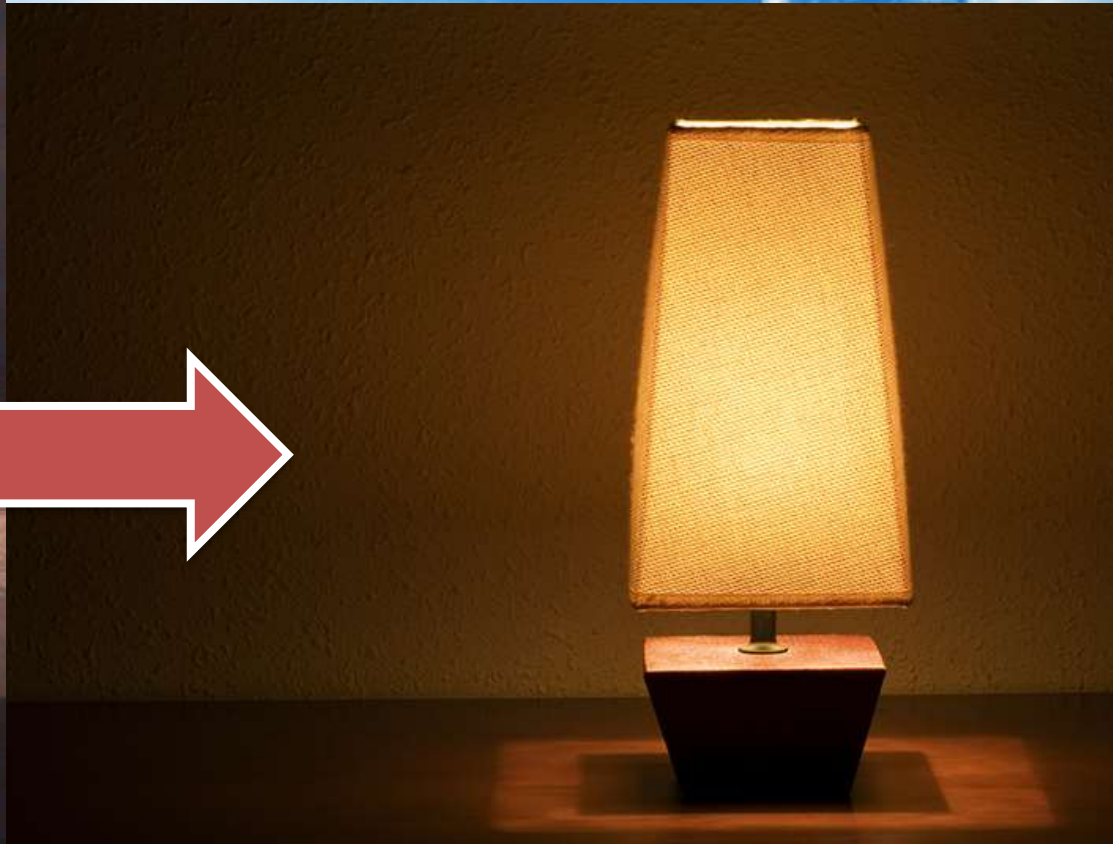

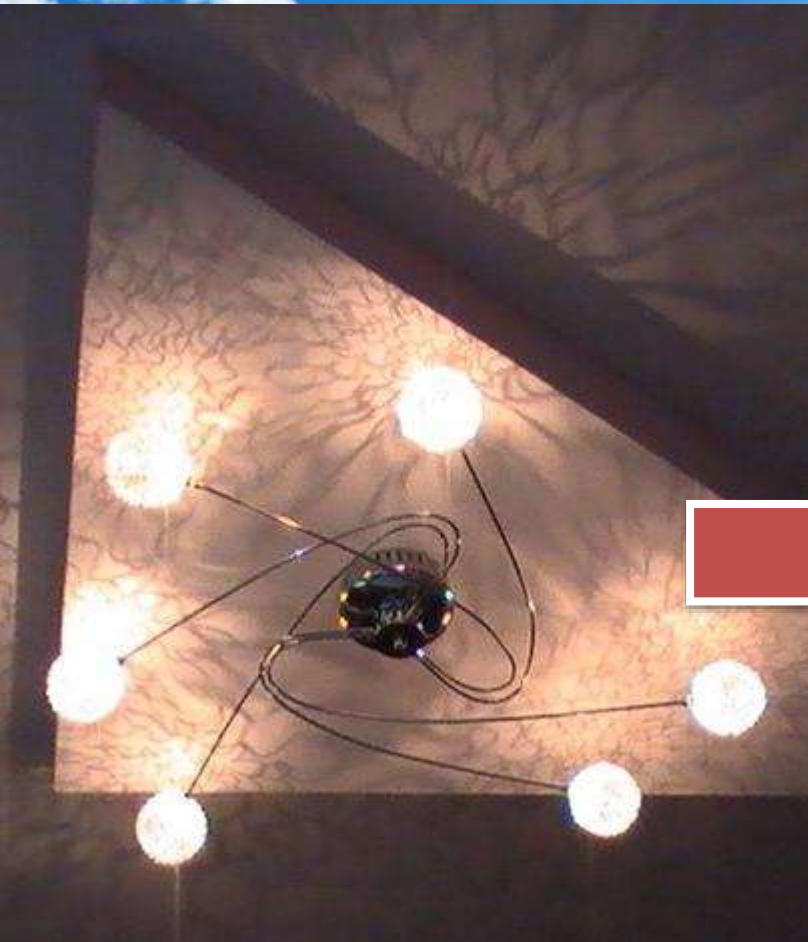

► *When you have a few things to wash you can do the hand washing*

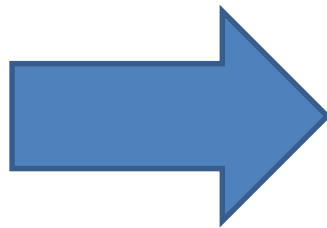

► *You should turn off the lights when you leave the room*

► *You can replace lights with bedside lamp at evening.*

► *Replace light bulbs with energy-saving bulbs.*

WATER

WHAT CAN WE DO?

- ▶ *Turn off water when you wash your hands or teeth*

► *Take a shower instead of long bubble bath*

- ▶ *When you wash your dishes pour water into the bowl to reduce the water flow*
