

# Ecology in our homes

How can we put it?

# Firstable: Why?

- ▶ Ecology? Why we need it? There are many answers for that question. Some people say, that ecology is very important for environment and our planet. Of course they are right, but there are many reasons of be eco. Ecology can also save some of our money. All of that reasons make Ecology very important for humans. Let's see how can we make our lifes more environmentally friendly.

# Many ways to save money

- ▶ There are so many simple ways to save our money. Let's see how can we reduce bills and other things. Technology and good habits could make us more richer. Let's look at a few of them.

# Electricity

- ▶ To make our power consumption less than usual we can stock up in many useful things. For example, Plasma TVs consume three time less power than LED TVs. It is good to keep this in mind. We can also buy some energy-efficient light bulbs. Very important thing is also turn off our charges, TVs and other similar divices.

# Vehicles

- ▶ How you get to work or school every morning? Have you ever tried get there by a bike? Bicycles are the most ecologic vehicles. However in winter you can get a bus or train. Public transport is also very eco – more people, less exhaust. Car is very unfriendly for environment. Think about it!

# Heating

- ▶ Did you know that heating by gas is more eco than heating by wood? Gas burns completely, other than wood or coal. Cars with gas are more friendly for environment than gasoline or diesel. And of course gas is also more cheaper!

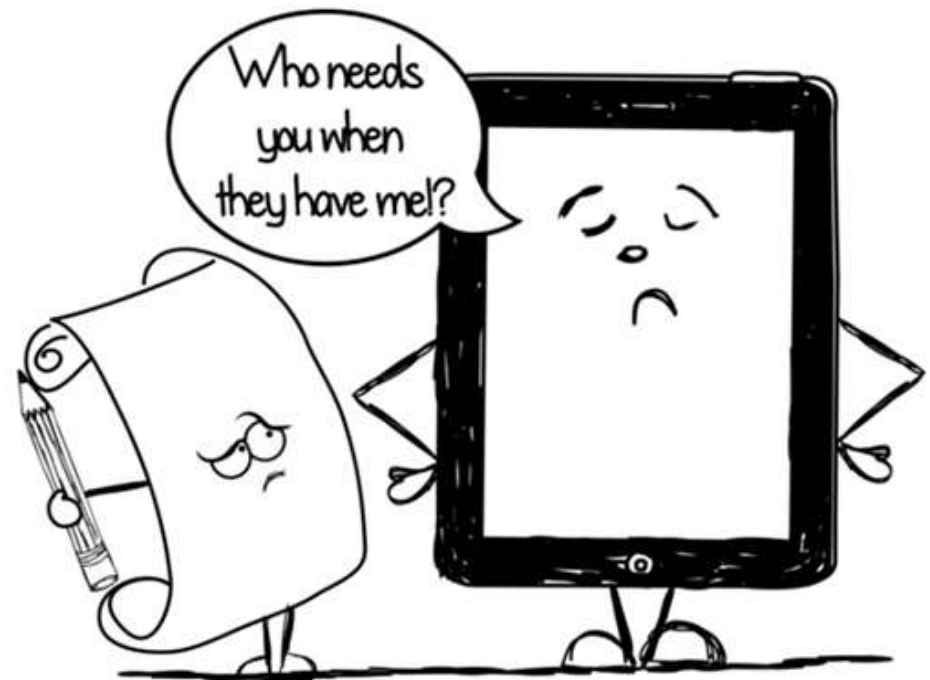

# Recycling and sorting

- ▶ That's a very important question. Currently, the segregation of garbage is not a problem. We've got many trash bins which help us with this ecology and basically step.

# Trees and paper

- ▶ Did you ever wonder how many trees must be cut because of paper? You can write your essays and homework on computer and send them by e-mail.

# And that's it!

- ▶ Remember that's many ways to be eco. Eco for our planet – Earth.
  - ▶ Thanks for watching.
  - ▶ Current presentation was made by Maciej Borowski.
